**Statement from State's Attorney Jamie L. Mosser on
2020 Case "Masking" Allegations**

St. Charles, Ill. - The Illinois Secretary of State issued a letter last week to the Federal Motor Carrier Safety Administration regarding actions taken by my Office in 2021 involving a 2020 criminal case against Nathan Sweeney. Contrary to the allegations made in that letter, the decisions regarding the case were based upon a number of factors that were unrelated to his Commercial Driver's License.

We welcome any review or audit of the 2020 case and our practices by the Secretary of State and the Federal Motor Carrier Safety Administration, which will show that the allegations against my Office are without merit. I continue to offer my deepest sympathy to the family of Deputy Musil for their loss.
